

Summer Tehqiq Research Program 2026
Weekly Minutes of Meeting
Week : 6

Project Title: AI-Driven Scalable Low-Cost Home Exercise & Monitoring System for Musculoskeletal Care

Name of PI: Dr. Imran Naseem

Date of Meeting: 20/7/2026

Mode of Meeting (Online/In Person): In-person

Meeting Attendees: Dr. Imran Naseem, Zain Naqi, Erum Naushad, Mikhaal Imam

Meeting Agenda: Progress and Way Forward

Points Discussed:

- The progress was discussed in detail in which we mentioned to PI that we have finished the prototype version of the feature through which physiotherapists can train the app with a new exercise, and then that can be imitated by patients for real-time corrective feedback in front of the camera.
- The overlay feature went through multiple rounds of development, and the latest phase was shown to the PI. The PI asked us to share some videos of exercises recorded in a lab instead of a domestic environment so that he can use them to verify the application.
- The neat UI was also shown, it was approved and we were told to integrate the features within it.
- The PI asked us for an update on the report for the Prototypes for Humanity contest. The appointed team member committed to sharing it in a few days.
- We discussed ideas regarding how the accessibility element of the application could be improved (such as recommendations of readily available household items that can be used for an exercise).
- With regards to procurement, the PI informed us that a quality camera has been procured for research use. We were asked to collect it. Besides that, the PI informed us that our request for an oximeter was also approved. We also briefed the PI as to what uses that device will serve in our application (features like fall detection, speeding heart rate, etc. and then adjusting the patient's routine for that day accordingly).

Action Items (Tasks Assigned):

- To expedite the UI integration progress.
- To send the competition report to sir in a few days.
- To collect the camera from the procurement department.
- To integrate the oximeter support as soon as it is procured.

Students' Timesheets

Date	Name of Student	Hours Worked	Approved By PI
13/07/2026	Mikaal Imam	8	
14/7/2026	Mikaal Imam	3	
16/07/2026	Mikaal Imam	6	
17/07/2026	Mikaal Imama	1	
18/07/2026	Mikaal Imam	3	
19/07/2026	Mikaal Imam	4	
Total Hours (Mikaal Imam):		25	
13/07/2026	Erum Naushad	5	
14/07/2026	Erum Naushad	1	
15/07/2026	Erum Naushad	4	
16/07/2026	Erum Naushad	6	
17/07/2026	Erum Naushad	3	
18/07/2026	Erum Naushad	3	
19/07/2026	Erum Naushad	3	
Total Hours (Erum Naushad):		25	
13/07/2026	Zain Naqi	7	
15/07/2026	Zain Naqi	4	
16/07/2026	Zain Naqi	2	
17/07/2026	Zain Naqi	7	
18/07/2026	Zain Naqi	3	
19/07/2026	Zain Naqi	2	
Total Hours (Zain Naqi):		25
