

## **Authentication:**

[Admin, Teacher, Parent, Student]

- School Logo & Name
- Email and Password Fields
- Forgot Password Link
- Login Button -> Role-Specific Dashboard

## **Admin (School Management) Dashboard:**

[Admin]

- Summary: Pending Action Items, Scheduled Emails, Overdue tasks.
- Options Buttons: Create new meeting, Schedule Email.
- Sidebar to all modules

## **Meeting Workspace Module:**

[Admin, Teacher]

- Table of all meetings () with date, title, department, people invited etc.
- Create New Meeting Option (only admin can create meetings, teachers can only join) which means that some teachers can also be admins (like head teacher of a certain department) -> meeting title, schedule, department, attendees.
- Details related to past meetings: Meeting notes (AI summarizer option included there), Action items assigned during that meeting.
- Action Items Board: Kanban Style or Table view (all action items across all meetings), "Filter by" option, Admin sees all, teacher only sees own assigned items.

## **Email Module:**

[Admin]

- Email dashboard: Upcoming scheduled emails, drafts, sent, compose new email, browse email templates.
- Compose and Schedule Emails: Send to an individual or a group like 'all parents'/'all students', all other options same as a standard emailing service.
- Email Templates: Premade templates, create new templates.

## **Performance Broadcaster:**

[Admin, Teacher]

- Upload results: Depends on the system at Bridge School. In general, this could be similar to Canvas.

## **WhatsApp Notifications:**

[Admin]

- WhatsApp Settings: Connect a number to send the message from.
- Write Notification Text and choose recipients.
- Notification Log (people who received, not received, read, etc.)

## **Portal Management:**

[Admin]

- Notice Board Manager: List of all published/drafted notices with other meta data. Create a new notice button with recipients selection, scheduling, etc.
- Opportunities Manager: Same as notice board manager but a specific page for relevant opportunities for the students.
- User Management: A main management area for all the users using the portal including options like remove or add user(s).

## **Student and Parent Portal:**

[Parents, Students]

- Portal Home: Welcome header with student name. A summary-like page (latest grades, attendance, etc). Recent performance reports released by teachers/admins.
- Progress Dashboard: Performance subject wise, class average etc. Attendance summary. Other things related to performance can be added per the school's request.
- Result history.
- Notice Board
- Opportunities Board
- Notification Settings and other related settings like WhatsApp number or email change request etc.

## **Teachers Portal:**

[Teachers]

- Teachers Dashboard: Action items, upcoming meetings, and other options for teachers.
