

Section 1: Metadata

to be filled by the student

1.1. Project Information to be filled by the student

Title: Automated Outreach, Meeting Management, and Student Engagement Tools	
Start: 1 June, 2026	End: 31 July, 2026

1.2. Student(s) Information

Name: Zain Naqi	ID: zn09224
Cell: 03440184995	Batch: 2027
Name: Erum Naushad	ID: en09191
Cell: 03005502968	Batch: 2027
Name: Fowzi Ali	ID: fa09193
Cell: 03142595148	Batch: 2027
Name: Syeda Hoorain Imran	ID: si08704
Cell: 03003505963	Batch: 2027

1.3. Client Information

Organization Name: The Bridge School	Contact: 0336 8946279
Address: Mughal Hazara Goth, Block 4/A Gulistan-e-Johar, Karachi	
Supervisor: Shuaib Abbas	Cell: 0315 2765129
Email: shoaibmaryami@gmail.com	

Section 2: The Project

to be filled by the external supervisor

2.1. **Project Description:** *Please provide a brief introduction of the project including its scope.*

The objective of this project is to build a tech solution addressing five core needs: an AI-powered meeting workspace and action tracker, an email automation pipeline, professional email templates, a WhatsApp notification channel for parents, and a Student & Parent Portal. In addition, we will develop an Automated Performance Broadcaster to streamline parent-teacher communication on student progress.

2.2. **Expected Deliverables:** *Please list the expected outcomes at the end of this project, e.g. a working prototype of the solution, a report, or the expected contribution to be made by the participant(s).*

AI-powered meeting workspace will be built and made functional, including centralised archive, action item management, and automated reminders. Email templates will be finalised and coded. Gmail API integration will be done and email automation pipeline will be completed (scheduling, triggers, AI-assisted drafting). AI summarisation and action item extraction will be integrated into the meeting workspace and Automated Performance Broadcaster will be built and integrated. A Student & Parent Portal will be developed, comprising a personalised student progress dashboard, a school notice board, and a curated opportunities and scholarships section. WhatsApp notification integration will be completed to deliver key alerts to parents and staff. End-to-end testing and bug fixes will be done. Then, a user guide and walkthrough video will be produced and an onboarding session will be conducted. Finally, the product will be fully handed to Bridge School. Full source code and a deployment guide will be delivered at the end of the project, ensuring ease of future maintenance.

2.3. **Planned Schedule:** *Kindly list the start/end dates and the timeline for the achievement of any intermediate milestones.*

The project is planned to start on 1 June 2026 and will be completed by 31 July 2026.

Phase 1 (1 Jun – 7 Jun): Requirements finalised with Bridge School. Software Requirements Specification (SRS) written. API contract documented. Entity-Relationship Diagrams (ERDs) designed. High-fidelity UI designs produced. Work planned and distributed across the team. Development environment set up and tech stack confirmed.

Phase 2 (8 Jun – 4 Jul): AI-Powered Meeting Workspace built and functional, including centralised archive, action item management, and automated reminders. Email templates finalised and coded. Gmail API integration complete. Student & Parent Portal built, including student progress dashboard, notice board, and opportunities and scholarships section. JWT authentication implemented.

Khidmat Proposal Form

Phase 3 (5 Jul – 24 Jul): Email automation pipeline complete (scheduling, triggers, AI-assisted drafting). AI summarisation and action item extraction integrated into the meeting workspace. Automated Performance Broadcaster built and integrated. WhatsApp notification integration complete.

Phase 4 (25 Jul – 31 Jul): End-to-end testing and bug fixes. User guide and walkthrough video produced. Onboarding session conducted. Full handover to Bridge School.

Total duration: 1 Jun – 31 Jul (160 hrs)

Khidmat Proposal Form

2.4. Modus Operandi: *Kindly explain the mode of operation i.e., how often and for how long should the student should visit your site, can they work remotely, how you will supervise them*

The project will be conducted primarily in a fully remote setting, with all development, coordination, and communication carried out online. In-person interaction will be limited to essential activities such as the onboarding and training session, or any other special circumstances where a physical meeting is specifically requested by the partner.

2.5. Comments: *Kindly mention any special requirements you expect and/or any comments you might have.*
