Free Electives	4	4		1
Professional Practices	1	0		0.00
Capstone	2	0		1
Overall	37	30		2

(x) Requirements left

CS 353 Software Engineering fulfils Creative Practice requirement

CS 412 Algorithms Design and Analysis and Data Structures II fulfils the Design Requirement

(+) The number of free electives attempted must be such that the total number of credit-hours is at least 130. Any course offered at the university, including CS electives, can be counted as a free elective. The quantity of the free electives shown above is for guidance only.

(+) Khidmat is being counted as 1 requirement under CS requirement category

Minimum Overall Credit Hours Requirement: 130

Number of semesters attended: 6

No. of credit hours (in progress): 0

Algorithms: Design & Analysis	CS Kernel
Data Structures II	CS Kernel
Database Systems	CS Kernel
Nature of Computation	CS Kernel
OOP & Design Methodologies	CS Kernel
Operating Systems	CS Kernel
